

Testimonials

The Center for Spinal Disorders takes pride in its patient care. Read testimonials from actual patients:

Patient 1 -

Dr. Janssen, Ruth, and Staff, I have been 99% pain free since my surgery in July. I have all of you to thank for that! You gave me back my life. I'm now physically active again. Not taking pain medications have almost taken away all of my stroke symptoms. No stress of pain and I can walk, write, read, etc. The list goes on and on. THANK YOU!

Patient 5 -

Dr. Janssen and Ruth, At this time I would like to send out my gratitude and heart felt thanks to both of you!! And also another special thank you to the rest of your team of qualified professionals. I was always treated with the utmost care and concern with which I find is almost extinct in todays medicine. I truly believe that when a person/patient is treated with dignity and respect it helps in all areas healing and self-esteem. You both stuck by me and believed in me and never once labeled or treated me as a "work-comp" status.
